**Thought for the day**

The famous reflection of Teilhard de Chardin suggests itself: The day will come when, after harnessing the ether, the winds, the tides, gravitation, we shall harness for God the energies of love. And, on that day, for the second time in the history of the world, man will have discovered fire. The uncertainties of today are evident, political, economic and environmental. What can we as people of faith contribute? Again in the words of Teilhard, "there is something wonderful afoot in the universe." The eyes of faith see the deeper pattern.

**Prayer:**

God of the cosmos, you hold everything in being. God of love, you love the human race. God of our hearts, helps us to see your handiwork not only in the universe, but in the everyday events of our lives. Amen.
